Summary

Applied Mathematics graduate with a strong foundation in coding numerical algorithms in Python and experience in coding statistical and machine learning models in R. Seeking an entry-level data science/analytics role where rigorous mathematical, quantitative, and qualitative training is used to gain business insight.

Education

California State University, Fullerton: B.A., Applied Mathematics (May 2026)

GPA: 3.60 | Honors & Awards: Deans List (Fall 2023, 2024)

Saddleback College: AD-T, Mathematics (May 2023)

GPA: 3.09 | Honors & Awards: Promise Program Scholar (2021)

Relevant Coursework: Linear Algebra, Mathematical Probability, Numerical Analysis, Mathematical Model Building, Data Analysis, Differential & Partial Differential Equations.

Technical Skills

- **Python** (sympy, numpy, pandas, matplotlib), **R** (tidymodels, tidyverse), **SQL**
- **Statistical/Machine Learning Skills:** regression (linear, logistic, penalized, polynomial, spline), decision trees, gradient boosting, principal component analysis, discriminant analysis, k-nearest neighbors, bootstrapping, cross-validation, and neural networks, clustering methods.
- **Data Visualization:** PowerBI, matplotlib, ggplot2

Projects

- "Determining All Star Status of Major League Baseball Players" by building a penalized logistic regression model using principal components (Data Analysis).
- "Determining What Strategy a Pitcher Employs" by using eigenvalues, eigenvectors, and modes (Numerical Analysis).

Experience

- Level 6 Associate | In-N-Out Burger: Entrusted in leadership roles and cash reconciliation, bank deposits, and safe management, demonstrating reliability and attention to detail in a fast-paced work environment.
